Jenkins file

1) Go to Jenkins
2) Create job- select pipeline
3) In Definition -> pipeline with SCM

Pipeline

Definition

Pipeline script from SCM ˅

SCM ?

Git ˅

Repositories ?

Save

4) Build now
5) After you build the project you will see that pipeline will appear in front of you

	Declarative: Checkout SCM	Checkout	Compile	CodeReview	UnitTest	Package Success
Average stage times: (Average full run time: ~1min 48s)	7s	6s	8s	17s	8s	
#2 May 16 08:02 1 commit	5s	5s	16s	33s	17s	23s
